

# The Systemic EdTech Testbeds Framework

Key components  
underpinned by human actors

- pre-conditions**
- sustainable funding in place
  - supportive education and economic policies
  - supportive school environments
  - key stakeholders are involved and motivated
  - access to the relevant educational & technological expertise
  - access to the relevant technology
  - access to EdTech evidence sources

## impact goals

- improve learning outcomes and experiences ↗
- produce financially viable and scalable EdTech ↗
- develop more effective teaching approaches ↗
- produce contextualised and equitable EdTech ↗
- further academic knowledge on EdTech ↗
- increase stakeholder collaboration ↗
- generate (better) evidence for EdTech products ↗
