We would like to report a typographical error in our previously publication. The error concerns the distribution of building blocks for the polypeptides E_{KE} and E_{KI} in Table 1.

The sequences were incorrectly reported as

E_{KE} : $(VPGKG)_{12} [(VPGVG)_2 (VPEG) - (VPGVG)_{12} (VPGKG)_{12}$

E_{KI} : $(VPGKG)_{12} [(VPGVG)_2 (VPGIG) - (VPGVG)_{12} (VPGKG)_{12}$

The correct sequences are

E_{KE} : $[(VPGKG) (VPGVG)_2 (VPEG) - (VPGVG)_2 (VPGKG)]_{12}$

E_{KI} : $[(VPGKG) (VPGVG)_2 (VPGIG) - (VPGVG)_2 (VPGKG)]_{12}$

This error in the building block distribution was also propagated to Table S1, which contains shorter variants of these sequences used for molecular dynamics (MD) simulations. The correct sequences in Table S1 are

E_{KE} : $[(VPGKG) (VPGVG)_2 (VPEG) - (VPGVG)_2 (VPGKG)]_5$

E_{KI} : $[(VPGKG) (VPGVG)_2 (VPGIG) - (VPGVG)_2 (VPGKG)]_5$

This error is limited to the sequences of E_{KE} and E_{KI} in Table 1 and Table S1. The hydropathy plots shown for those two polypeptides in Figure 1a are correct. Furthermore, we have verified that the sequences used in the MD simulations for E_{KE} and E_{KI} correspond to the corrected sequences provided above for Table S1.

These typographical errors do not affect the results or conclusions of the paper. We apologize for any confusion that this may have caused.
