**Word count 3699**

**Keywords: child psychopathology; contextual risk**

### **Acknowledgments**

The author wishes to thank Constantinos Kallis, London School of Hygiene and Tropical Medicine, and Nikos Tzavidis, Institute of Education's Centre for Longitudinal Studies, for their helpful comments in the Analytical Considerations section of the paper. This paper was written while on support from a grant from the British Academy to investigate the effect of contextual risk on children's emotional and behavioral problems.
