4775 patients randomised in four trials

- 2393 assigned to stenting
  - EVA-3S: 265
  - SPACE: 607
  - ICSS: 853
  - CREST: 668

- 2361 assigned to endarterectomy
  - EVA-3S: 262
  - SPACE: 589
  - ICSS: 857
  - CREST: 653

8 withdrew consent

- 2326 carotid stenting procedures initiated and included in per protocol analysis
  - EVA-3S: 260
  - SPACE: 591
  - ICSS: 828
  - CREST: 647

- 67 patients excluded
  - 26 received endarterectomy
  - 41 received no procedure
  - 0 died before treatment

13 withdrew consent

- 2271 carotid endarterectomy procedures initiated and included in per protocol analysis
  - EVA-3S: 257
  - SPACE: 567
  - ICSS: 821
  - CREST: 626

- 90 patients excluded
  - 26 received stenting
  - 61 received no procedure
  - 3 died before treatment

- 8 withdrew consent

- 41 received no procedure

- 0 died before treatment

- 26 received stenting

- 61 received no procedure

- 3 died before treatment

- 67 patients excluded

- 26 received endarterectomy

- 41 received no procedure

- 0 died before treatment

- 90 patients excluded

- 26 received stenting

- 61 received no procedure

- 3 died before treatment

- 2326 carotid stenting procedures initiated and included in per protocol analysis

- 2271 carotid endarterectomy procedures initiated and included in per protocol analysis
