

AI phenotype

Hypoplastic

- Quantitative defect
- Can be described as pitted, rough, or smooth

Example of pitted hypoplastic AI in the mixed dentition

Hypomineralised

- Qualitative defect

Hypocalcified

Example of hypocalcified AI in the permanent dentition

Hypomature

Example of hypomature AI in the permanent dentition (UR1 lost due to trauma)

Mixed / combination

- Combination of hypomineralised and hypoplastic defects on the same or different teeth
