Amantine was a beautiful girl who lived in a village called Phola.
She lived with her parents.
She attended school at G. J. Podile Primary School. She was a child who loved school.
She faced various challenges that made her dislike school.
The teacher called Amantle’s parents so they could talk about the child.
After a while, her parents asked the girl what her problems were.
She then told them that she wanted to work to be like them.
They saw that a child leaves school because of a lack of knowledge and encouragement.
They then sat down with her, explaining that they could not get their dream job because they could not finish school.
Amantine was shocked. She could not believe what she was hearing, but that ended up encouraging her to go to school.
Amantle has learned that failure is not the end of the world. It is the first step in going forward and education is the future.
