The name of our village is Letlhogori.
In our village, we need roads and shops.
One day our parents used donkey carts to go to the government offices in town to ask for help.
They asked for roads and shops to be built nearer to our village.
The government listened to what the parents had come to ask. They built the roads and shops in no time.
There was joy in the village. The parents were happy to see what the government had done for them.
The parents enjoy walking to the nearby shops on good roads.
