My father loves his car very much, even when it gives him problems. He does not want to sell it, because he loves it very much.
My father’s car is giving him some serious problems. It is stuck, and my father does not know what the problem is.
The way this car does not want to move, I even think we should walk to school because we will be late for school.
There is no way you will walk to school while I am still around my children. Your father will make sure that he fixes the car,” said their father.
“As your father, I will make sure that I fix the car so I can take you to school. The school is too far for you to walk my children,” said their father.
“I think the problem with this car is the oil, my children. I will pour some oil into the car to see why it is giving me problems.”
“Our father is looking for oil. I am hoping that the car will be fine in time.”
“I am pouring the oil in the car, and I hope after that I will manage to take you to school and take your mother to work”.
“My car is fine; I will manage to take you to school. The car even sounds great, it does not have any problems anymore. I am happy; I will be able to take you to school”.
My father’s car
