Acknowledgements

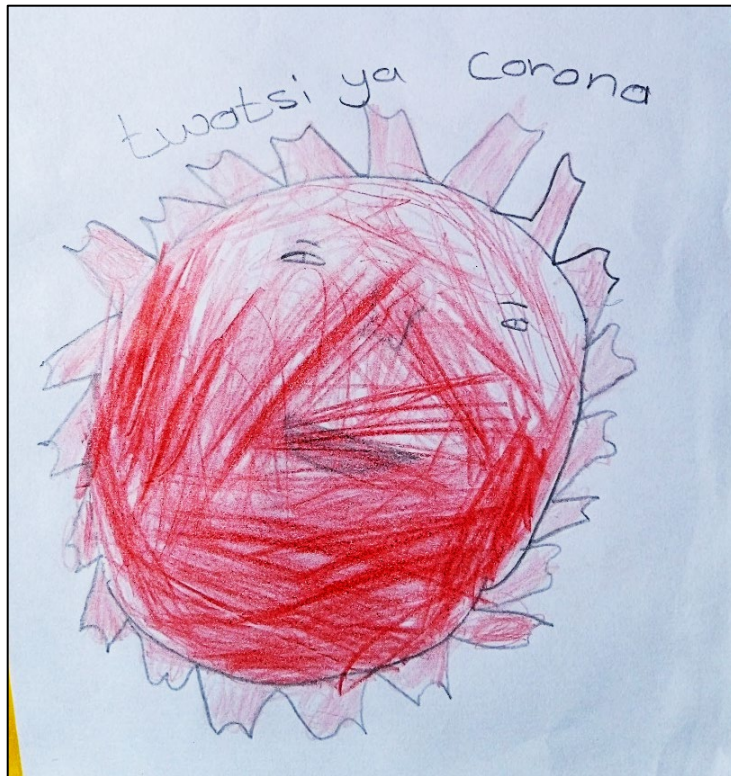

The following partners have played a valuable role in the co-creation of this storybook:

The North West Province Department of Education, Ngaka Modiri Molema District, South Africa.

The Department of Basic Education, Directorate: Rural Education, South Africa.

London South Bank University, United Kingdom.

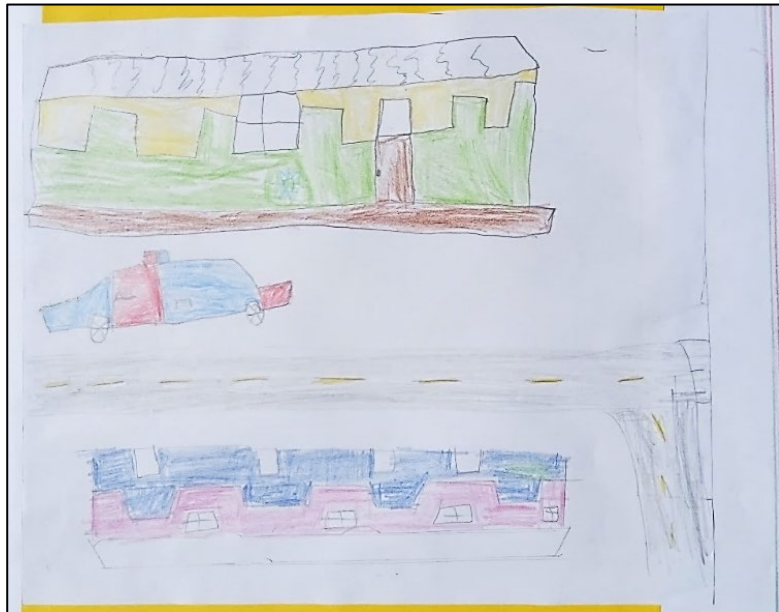

The Economic & Social Research Council (ESRC) (ES/T005149/1), United Kingdom (funder).

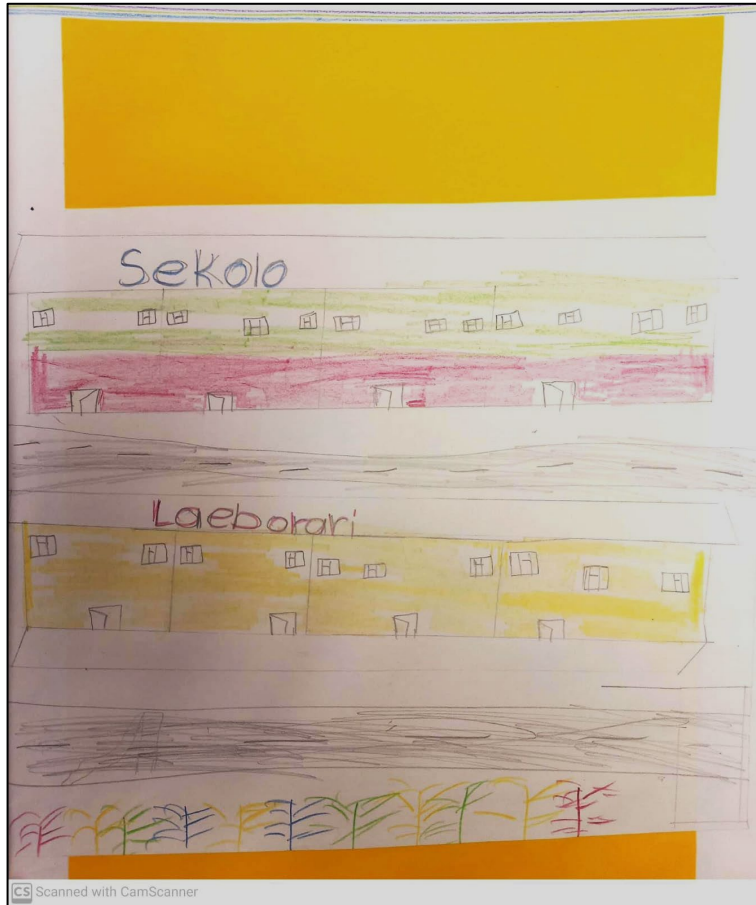

Our country was
attacked by a disease
called the
Coronavirus.

People got sick, and it became horrible in the country.

Schools were closed for safety and the prevention of the virus for teachers and learners.

Learning was stopped
for a long time
because of this virus.

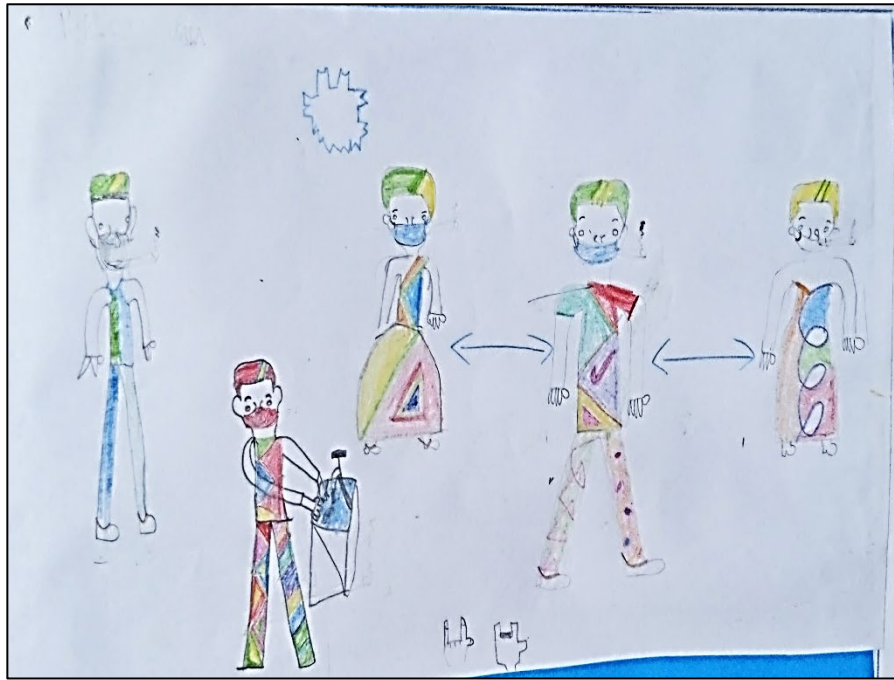

We had to be vaccinated to prevent the virus. In our country, we were injected to stay safe.

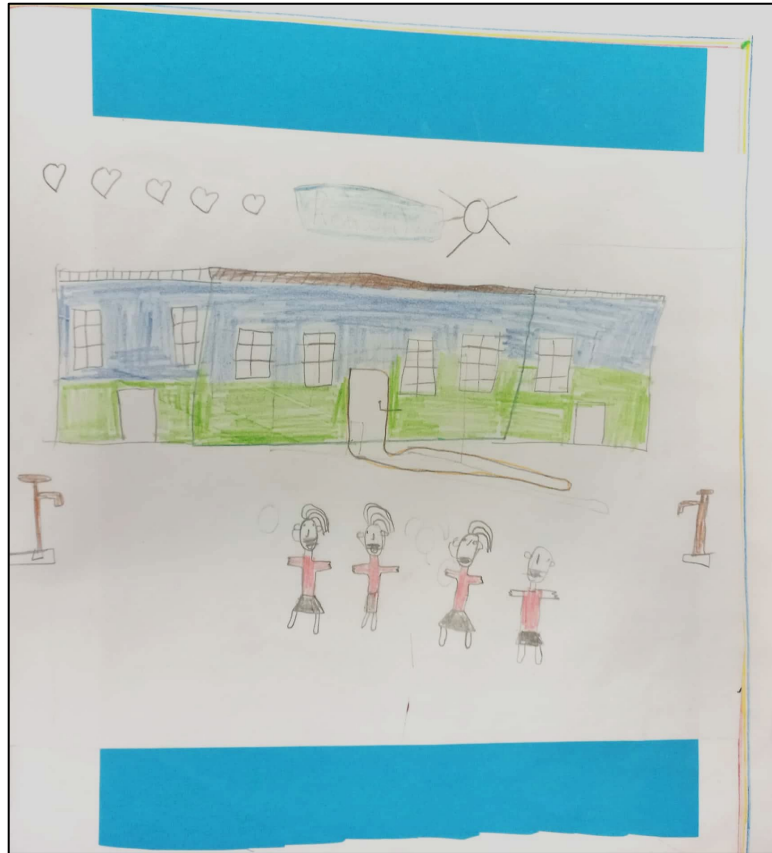

The learners were behind with their syllabus. They were not reading and writing.

The department buildings were closed.

The President gave us the rules on how to protect ourselves to stay safe, like washing hands with running water and covering our faces with masks.

Schools were reopened, learners came to school on different days, and they were paired in groups.

The learners were happy because they could continue with learning to reach their dreams.

The contents of this booklet can be copied, translated or adapted as long as the relevant sources have been acknowledged properly.
