The children were playing many games in the playground.
The games were fun, and the children were very happy.
But some children could not play because muscles in their feet and hands hurt.
Some children were very sad when other children were not able to play.
They agreed to help them.
They stopped the games a bit to exercise.
The exercises helped those who were not able to play.
The children were happy, and they were all able to play.
Games
