Segametsi is a girl who is light-skinned. She has a brother and a sister.
Unfortunately, one day they lost their parents.
As a result of losing their parents, Segametsi had to take the responsibility of providing for her brother and sister.
She started growing a vegetable garden in the back of their house.
She started selling vegetables to earn an income to support her brother and sister. Her business was still new, but she had her own customers.
She visited bigger markets to ask them to buy her vegetables. As they worked together, Segometsi’s business grew.
This made it possible for her to take care of her brother and sister and to send them to school. The oldest one went to university.
