바르셀로네타 시장

이 프로젝트에서는 다른 의미로 해석된 빛을 보여주고자 했다. 바르셀로네타 시장은 쇠퇴한 상태로 방치되어 있었고, 정부에서는 그 시장을 더욱 유용하게 사용하도록 레스토랑 그리고 시장, 사무실과 같은 새로운 프로그램을 통해 활발한 장소로 변형시키고자 했다. 접근 방법은 『어린 왕자』에 나오는 보아뱀이 코끼리를 먹고 있는 형태에서 시작했다. 원래의 뱀 형태에서 변형된 코끼리를 먹고 있는, 모자 형태로 시장은 이루어질 것이다. 시장은 새로운 프로그램을 포함시켜야만 했고, 우리는 측면을 변화시켜 새로운 볼륨과 공간을 갖는 활동적인 장소를 만들고자 했다. 최종적으로 시장은 지하로 결정되었으며 새로운 계획은 지상에서 이루어질 것이다. 몇 년 전의 시장 프로젝트와 동일한 방법으로 지붕에 새로운 컨테이너를 설치할 예정이다.

Various ways in interpretation of light are the next steps to introduce our project. Many closed shops in diluted colors showed that Barceloneta market had been abandoned for a long time. Therefore, the government bureau launched a new project to rejuvenate the market with eateries, restaurants, open market, and various offices. The overall impression of the outer appearance of the project is reminiscent of the snake of Little Prince that swallowed an elephant. The profile of the snake is little bit different from the original, but it is still like the shadow of a wide-awake hat. This simple but interesting shape will be a road map for the new market. This road map should be flexible enough to mirror new programs. The mutation of the frank of the building is to add more voluminous space for various activities. Our new project will start from the underground sections and the result will be more than your expectation. Just as we did for the old market, we will install the new concept of container space onto the top of the roof.
