

# Supplementary Materials: A Defective Interfering Influenza RNA Inhibits Infectious Influenza Virus Replication in Human Respiratory Tract Cells: A Potential New Human Antiviral

Claire M. Smith, Paul D. Scott, Christopher O'Callaghan, Andrew J. Easton and Nigel J. Dimmock

**Figure S1.** Determination of the EC<sub>50</sub> value for two independent assays of 244/PR8 DI virus in primary nasal basal cells. Dashed lines show the values for treatment of cells with the control UV inactivated 244/PR8 DI virus in the same assays.
